***Allowable Subject Matter***

1. Claims 1 – 23 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 10, and 17, for example which include a method for a conductive lens having forming a silver flash layer on a lens utilizing openings that extend through polyester sheet to expose an edge portion of silver flash layer and applying a conductive bus layer around the edges of lens and conductive bus layer providing an electrical coupling between silver flash layer and conductive bus layer through an openings .
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
